PAL is a nonprofit organization which rents apartments to INDIVIDUAL adults with developmental disabilities (No families or children). PAL tenants must be able to live semi-independently without regular supervision but must receive support services to enable them to live as independently as possible. Tenants must pay their own expenses including rent, utilities, food and support services. Rent is \$400 per month. To be eligible, tenants must have low incomes under federal guidelines. A \$500 damage/security deposit is required as well as a \$500 Program Participation Fee.

All apartments have two bedrooms and are rented to two people per apartment. Some units have a washer and dryer and swimming pool. The buildings and units are NOT wheelchair accessible. PAL maintains all appliances in high quality operating conditions. The apartments are inspected twice each month and the maintenance contractor is always on call for repairs.
