The Department of Health Care Policy and Financing is committed to providing service delivery options that empower Medicaid clients and their families to direct and manage the long-term care services and supports they need to live at home.

Consumer Directed Attendant Support Services (CDASS) lets you direct and manage the attendants who provide your personal care, homemaker and health maintenance services, rather than working through an agency. Through CDASS, you are empowered to hire, train and manage attendants of your choice to best fit your unique needs or you may delegate these responsibilities to an Authorized Representative.

The Autism Society of Colorado does not endorse or promote any therapy, provider or method. The information we collect is for your convenience and any background or certification checks you require are your responsibility.
